Nicholas J. Wohlfeil

Applications Developer

Ann Arbor, MI | njwohlf@umich.edu | nickwohlfeil.com | LinkedIn | GitHub

SUMMARY

Applications developer maintaining internal tools and managing client websites. Experience across web applications, Python systems, and university robotics research.

TECHNICAL SKILLS

Web: Next.js, Vue.js, TypeScript, JavaScript, PHP, Node.js, SQL, PostgreSQL, WP Engine

Software: Python, C++, C#, Julia, MATLAB, ROS 2, OpenCV, Git, Docker, Unity

EXPERIENCE

Applications Developer September 2026 - Present

TouchStone Digital

- Maintain internal tools and manage client websites, handling ongoing site updates and development across WP Engine, Next.js, PHP, and related web technologies.

Applications Developer December 2024 - December 2025

University of Michigan Robotics Department

- Developed and maintained full-stack applications with Vue.js, PHP, and SQL, integrating secure database access.
- Managed datasets with 100,000+ records and automated data extraction, integration, application processing, and records management.
- Designed a centralized inventory system with real-time checkout to track departmental assets.

Course Assistant June 2024 - August 2024

U-M Comprehensive Studies Program

- Supported preparatory calculus students through classroom assistance, workshops, and tutoring; collaborated with faculty to refine course content.

Research Assistant August 2023 - May 2024

Vehicle Optimization, Dynamics, Control and Autonomy Lab (VODCA)

- Contributed to a satellite-orbit simulation using an omnidirectional rover as a physical test platform, supporting lower-level control, data collection, and analysis.

Research Assistant August 2022 - May 2024

Michigan Aerospace and Robotics Verification Laboratory (MARVL)

- Analyzed wheel-encoder data for velocity and acceleration accuracy and contributed to computer vision and low-level state estimation for robot-safety research.

EDUCATION

B.S.E., Computer Science Engineering | University of Michigan, Ann Arbor, MI | 2020 - 2024
